

Ahmed khalid kamal

MERN Stack Developer | React.js | Next.js | Node.js | MongoDB

kmalahmdkhalid927@gmail.com | 01031571508 | [linkedin](#) | [github](#) | [Portfolio](#)

Profile

Full Stack MERN Developer skilled in React.js, Next.js, Node.js, Express.js, and MongoDB. Experienced in building scalable web applications, RESTful APIs, responsive interfaces, and secure authentication systems. Focused on performance optimization, clean code, and modern web development practices.

Education

Bachelor of Computer Science and Artificial Intelligence,

Sep 2020 – Jul 2024

Benha University — Information Systems Department

GPA: 3.3 / 4.0

- Developed strong foundations in software engineering, databases, and full-stack web development.
- Built scalable web applications and academic projects using modern technologies and development practices.
- Applied problem-solving and teamwork skills through practical software projects.

Professional Experience

Web development instructor, [Eyouth](#)

April 2026 – Present
Cairo

- Increased student engagement and technical understanding by simplifying complex programming concepts.
- Delivered hands-on web development training sessions focused on JavaScript, React.js, and full-stack development concepts.

Frontend Developer, [Sporton](#)

Feb 2026 – May 2026
cairo

- Developed scalable frontend solutions Egyptian athletes using React.js, Next.js, TypeScript, and Tailwind CSS.
- Improved page load performance by approximately 30% through frontend optimization and efficient rendering techniques.
- Improved page load performance by approximately 30% through frontend optimization and efficient rendering techniques.

Full Stack Developer, Freelance

Apr 2024 – Present

- Developed and deployed scalable full-stack web applications using React.js, Next.js, Node.js, Express.js, and MongoDB.
- Built secure RESTful APIs and implemented JWT authentication and role-based authorization systems.
- Collaborated directly with clients to gather requirements and deliver production-ready solutions with high client satisfaction.

Frontend Developer, Web Master

Jul 2024 – Dec 2024
cairo

- Optimized website responsiveness and frontend performance, reducing UI issue
- Conducted website performance audits and implemented security improvements to enhance system stability.
- Maintained and enhanced user experience across multiple devices and screen sizes.

Projects

[Sporton — Sports Platform](#)

Tech Stack: React.js, Next.js, TypeScript, Tailwind CSS, Framer Motion

- Built responsive and interactive frontend interfaces using React.js, Next.js, and Tailwind CSS.
- Improved frontend performance and user experience through optimized rendering and reusable component architecture.
- Collaborated within a large-scale multi-connector platform that connected athletes with clubs, brokers, institutes, and brands.

[Sity Cloud](#)

Tech Stack: Next.js, TypeScript, shadcn/ui, Tailwind CSS

- Developed modern and responsive frontend interfaces using Next.js, TypeScript, and shadcn/ui components.
- Built reusable UI components and scalable frontend architecture for production-ready web applications.
- Improved user experience and frontend maintainability through clean code practices and component-based development.

[Edumatek — Educational Platform](#)

Tech Stack: React.js, Next.js, Node.js, Express.js, MongoDB, Tailwind CSS

- Developed a full-stack educational platform with secure authentication and role-based authorization systems.
- Built and integrated 20+ RESTful API endpoints for courses, users, and dashboard management.
- Designed responsive and user-friendly interfaces using Tailwind CSS and modern React architecture.

- [Student Experience System](#)
- [Educational Dashboard System](#)

Kinder-Link – Nursery Management System

Tech Stack: React.js, Node.js, Express.js, MongoDB

- Built a full-stack nursery management system for handling daily operations and administrative workflows.
- Developed dashboards for students, teachers, and administrators with role-based access control.
- Implemented secure authentication systems and optimized backend data han

E-commerce Platform

Tech Stack: React.js, bootstrap,redux,formik

- Developed a complete e-commerce platform with authentication, cart management, and payment integration.
- Improved frontend responsiveness and optimized API calls for faster user interactions.
- Enhanced user experience through responsive UI design and efficient state management.

Skills

Frontend Development: React.js ,Next.js ,TypeScript , JavaScript (ES6+) , HTML5 , CSS3 Tailwind CSS , shadcn/ui , Bootstrap , Responsive Design , Framer Motion , React Hooks

Backend Development: Node.js , Express.js , NestJS , RESTful APIs , JWT Authentication , Role-Based Authorization , API Design

Databases: MongoDB , PostgreSQL , MySQL , Mongoose , Sequelize

State Management & Data Fetching: Redux Toolkit , React Query , Context API

Tools & DevOps: Git , GitHub , Postman , Axios , Docker , npm , Monorepo Architecture

Form & Validation: Formik ,React Hook Form , Yup , Zod , Joi

Additional Skills: Performance Optimization , Clean Code , Scalable Architecture , Problem Solving , UI/UX Awareness

Languages

Arabic — Native

English — Intermediate
