

Ahmed khalid kamal

MERNStack Developer

ahmedokab2002@gmail.com | 01031571508 | [linkedin](#) | [github](#) | [Portfolio](#)

Profile

Results-driven MERN Stack Developer with hands-on experience building performant, responsive, and scalable web applications using React.js and Next.js. Proficient in developing robust RESTful APIs, implementing secure authentication, and translating complex designs into clean, maintainable UI components. Currently working as a Web Development Instructor while taking on freelance full-stack projects, combining technical delivery with strong mentoring and problem-solving skills.

Education

Bachelor of Computer Science and Artificial Intelligence, Sep 2020 – Jul 2024
Benha University — Information Systems Department
GPA: 3.2 / 4.0

Professional Experience

Web development instructor, Eyouth | (Remote) April 2026 – Present
Cairo

- Delivered hands-on, practical web development training sessions focused on JavaScript, React.js, and MERN stack concepts.
- Mentored students through real-world projects, significantly increasing their technical understanding and coding standards.
- Simplified complex programming concepts into digestible modules, improving overall student engagement and course completion rates.

Frontend Developer, Sporton Feb 2024 – Jul 2024
Cairo

- Developed scalable frontend solutions for an Egyptian athletes platform using React.js, Next.js, TypeScript, and Tailwind CSS.
- Improved page load performance by approximately 30% through frontend optimization, lazy loading, and efficient rendering techniques.
- Collaborated within a large-scale multi-connector platform connecting athletes with clubs, brokers, institutes, and brands.

Frontend Developer, Web Master Aug 2024 – Dec 2024
Cairo

- Conducted comprehensive website performance audits and implemented security improvements to enhance system stability.
- Optimized website responsiveness and frontend performance, reducing UI bugs across key pages by streamlining component structure.

Projects

Sity Cloud

Next.js, TypeScript, shadcn/ui, Tailwind CSS

- Developed modern, responsive, and SEO-friendly frontend interfaces using Next.js and shadcn/ui components.
- Integrated frontend with external APIs and ensured cross-browser compatibility.

EduMatek — Educational Platform

Next.js, TypeScript, Node.js, shadcn/ui, Tailwind CSS

- Developed a full-stack educational platform with secure JWT authentication and role-based authorization systems.
- Built and integrated 20+ RESTful API endpoints for courses, users, and dashboard management.
- Architected reusable UI components and a scalable frontend architecture for a production-ready environment.
- Dashboard: [Live Demo](#)
- Student platform: [Live Demo](#)

Kinder-Link – Nursery Management System

React.js, React Native, Node.js, Express.js, MongoDB

- Developed a comprehensive cross-platform management system (Web & Mobile) for handling daily nursery operations and administrative workflows.
- Built a custom, reusable package to share business logic and UI components seamlessly between the React.js web app and the React Native mobile app, reducing development time and ensuring consistency.
- Developed secure dashboards for students, teachers, and administrators with role-based access control and JWT authentication.

Skills

Frontend: React.js, React Native, Next.js, TypeScript, JavaScript (ES6+), Tailwind CSS, Redux Toolkit, Framer Motion , react native

Backend: Node.js, Express.js, NestJS, RESTful APIs, JWT Authentication, Postman.

Databases: MongoDB , PostgreSQL , MySQL , Mongoose , Sequelize

Tools & Concepts: Git, GitHub, Responsive Design, UI/UX Principles, Agile/Scrum.
